ultimate arena showdown

The game is incomplete, and not very enjoyable in it's current state. It has amazing potential. The Developers have not updated the game since June of 2018, so I cannot recommend the game in this state.. lacksd chngungis and more marble bash othergay itsd gokay. This game is so rubbishly buggy youd be better getting the original you cannot even get past each fighter doing one thing then all of their AI freezes!
